

# Burk High-Class Apparel

## Commands Recognition of Supremacy

Character will tell and merit ever wins. There is more character to Burk-made clothing, infinitely more merit to the workmanship applied than any other ready-to-wear apparel produced, and we make this claim in full cognizance of its scope, but with the knowledge of the tailoring lines followed in its production. It is practically tailoring ready for service, being made from the identical fabrics exclusive tailors use and made by the best skilled workmen, whilst in points of jaunty style, individuality and fit they often excel. By reason of the maker-to-wearer proposition and our enormous mercantile leverage, you pay actually less for this superior apparel than you will for inferior kinds elsewhere.

**Burk Hand-Tailored Suits,**

1003 East Main St.

**AN IDEAL COTTAGE FOR \$2,410.**

CLYDE ADAMS ARCHITECT

This frame two story cottage is a pleasing design. It has a large living room, dining room, and kitchen, all very conveniently arranged on the first floor.

The second story contains three bed rooms and a sewing room. One of the bed rooms has a bay window. Each room has a closet. The bath room is in the rear of the house.

The house can be enlarged by building a pantry in the rear and putting a bay window in the dining room. A fireplace would also help make the dining room and chamber above very attractive.

Story height, first floor 9 feet, second floor 8 feet 6 inches. Stone foundation to cellar 7 feet deep under entire house. The roof is shingled.

The following estimate shows costs of the house itemized, with first floor hardwood finish in the principal rooms, balance of pine.

Excavating,	\$155	Stairs,	120	Hot air heating,	100
Stone Work,	175	Hardware, etc.,	95	Paint and Glazing,	250
Plumber,	400	Plumbing,	210	Millwork,	455
Roofing,	410				\$2,410

R. T. Furlough and wife to T. S. Mondy, 31 feet on south line of Washington Street, 30 feet west of Baker Street, \$1,300.

## MANY NEW BANKS IN THE SOUTHERN STATES

Over 200, With Ten Million Capital, Chartered in the Last Four Months.

(Special to The Times-Dispatch.)  
BALTIMORE, May 19.—In its issue this week the Manufacturers' Record says: "Reports received by the Manufacturers' Record show that during the first four months of the current year there were chartered or incorporated in the South 230 banks and trust companies with a total authorized capital of \$10,025,500. Of this number 163 are State banks, with \$5,002,000 capital; 54 are national banks, with \$2,510,000 capital, and 23 are trust companies, with \$2,444,500 capital. Including Indian Territory, Oklahoma and Missouri, there is a total of 253 new banks and trust companies, with a total authorized capital of \$12,294,000, including 180 State banks, with \$5,470,500 capital; 75 national banks, with \$3,110,000 capital, and 28 trust companies, with \$3,704,500 capital.

North Carolina had twenty charters, with a capitalization of \$880,000, including thirteen State banks, three national banks and four trust companies.

"Virginia reports eleven new charters, with \$385,000 capital; Maryland ten charters, with \$475,000; Mississippi ten charters, with \$345,000; West Virginia ten charters, with \$330,000; Arkansas eight charters, with \$715,000; Missouri eight charters, with \$1,355,000; Louisiana and Tennessee seven charters each, with \$890,000 and \$241,000 capital, respectively; Kentucky four charters, with \$240,000, and Florida one trust company, with \$40,000 capital.

"This review of new banks in the South does not include the organization of banks previously chartered or the opening of banks, but simply notes those for which charters have been granted, so as to make clear the recent additions to the banking facilities of this section of the country. A great many banks which were incorporated before January 1st have organized during the past three or four months, and have prepared to begin business, while others have actually opened, and still others are organizing, preparatory to making application for incorporation. The demand for banking facilities throughout the South appears to be undiminished, and it is probable that new charters will continue to be reported during the next several months in about the same ratio as is here shown for the first part of the year."

## B. & O. Earnings.

(Special to The Times-Dispatch.)  
BALTIMORE, MD., May 19.—The Baltimore and Ohio's April statement presages good reports from other Eastern roads, excepting the anthracite coalers for that month. The Baltimore and Ohio's April gross of \$3,304,783 nearly equaled March and January, when \$4,711,000 and \$3,575,450 were respectively shown, and exceeded February, which was \$3,002,000. The April net of \$2,237,444 was likewise not far below the net of March and January, \$2,988,817 and \$2,447,960, respectively, and considerably exceeded February, which was \$1,874,317.

The Baltimore and Ohio for ten months is \$3,918,842 ahead in net earnings of the same period last year. May and June should gain at least \$700,000 more, making the year's increase at least \$1,600,000. This on the basis of last year's fixed charges, would make about \$16,500,000, which is over ten per cent. on all the common stock to be outstanding after the new \$27,750,000 issue is made, making the total outstanding \$102,750,000.

## CHASE CITY SELLS LARGELY OF TOBACCO

New Church Completed and Other Buildings in Progress.

(Special to The Times-Dispatch.)  
CHASE CITY, VA., May 19.—Practically all of the tobacco crop has been marketed, and the warehouses for the sale of leaf will close here on June first. About three millions of pounds of this tobacco year. Farmers are using fertilizers in large quantities, and will curtail the area for planting. Their purpose is to concentrate their efforts on more thorough cultivation and improve quality regardless of quantity of an inferior article. White labor now produces the bulk of the crop in this section. The able-bodied negroes are off for public works and the numerous saw-mills.

The farmers tobacco business here conducted under style of Robeson Tobacco Company, incorporated and organized in 1905, expects to declare a dividend of twenty per cent. on capital stock this year. This is a wonderful success.

The contest for appointment to the postmaster here is quite animated. All of the aspirants claim it as a certainty. J. M. Sloan, W. D. Smith and B. L. Harvor are vigorously pressing their claims. If the successful one will use the same activity, courtesy and efficiency in the management after he gets the office as he exhibits in his efforts for it, we will have an up-to-date postoffice.

The capital here just completed is one of the handsomest and most convenient in all of its appointments in the county. The painting and decorations were by a Richmond firm.

Several elegant new residences are in process of erection here. From present indications the town will be filled with summer boarders. The uncertain cook is the only thing disturbing the bright anticipations of boarding-house keepers.

## MORGAN BUYING.

Believed Chicago Surface Lines Will Pass to New Pork Syndicate

(Special to The Times-Dispatch.)  
NEW YORK, May 19.—It was said yesterday that the belief prevailed in Chicago that the control of all the surface transportation system of Chicago would pass into the hands of a New York syndicate headed by J. P. Morgan. This is not news to Wall Street. Three years or more ago this was made known, and workings to that and have been going on ever since.

The Union Traction Company is controlled by interests dominated by Mr. Morgan, and thirteen months ago the Chicago City Railway Company was purchased by the Morgan interests. Mr. Morgan's representatives now are in Chicago making arrangements to come to a definite understanding with the municipality on behalf of the traction lines of the city.

## Advance in Light Rails.

(Special to The Times-Dispatch.)  
NEW YORK, May 19.—The Pennsylvania Steel Company has advanced the price of light steel rails \$2 a ton, due to the excessive demand. Considerable competition in light rails exists, and the standard section rails the mills are allowed to make their own quotations.

## U. S. Steel Earnings.

(Special to The Times-Dispatch.)  
NEW YORK, May 19.—According to a report from Philadelphia, the present earnings of the United States Steel Corporation are the largest in its history, being at the rate of upwards of 25 per cent. on the common stock.
